Hello Mrs. Finlay

I heard about your work on helping poor seniors get their GIS payments back. I have talked with Service Canada several times. Last week they told me I should have gone through my MP before Feb 28 to get a March payment. All of my GIS was cut and I've been living on around \$700 a month. But it's sure not living. I couldn't find any information anywhere about this MP policy. When I contacted them again to find out when going through my MP was decided and ask what happens to the rest of us they wouldn't give me any information about how they were deciding who would get the March payment. They talked about some criteria but won't say what it was. They wouldn't even tell me when the payment was going out. I heard the minister of seniors said a March payment would go out to those in the worst shape. But service Canada says they were very busy and it will be impossible for every one in most need to get a payment in March. We just can't believe anyone.

I've run out of food and can't afford to get to a food bank. I have to choose between paying for food or keeping my phone and internet going. I live on charity for other things. I have had to borrow from people to keep going. I feel so humiliated. I believed the minister when she we will get the payment in March if we were in bad shape. Now they tell me there was no promise about a March payment and I will have to wait until the end of April. I just can't.

Can you do anything to help get this sorted out? Thank you so much and Bless you.
